

FAQ

I have never used a scooter before. I am worried that I won't be able to drive one.

These concerns are not necessary. Before the tour starts, your guide will show you how to operate the scooter. It is really easy, plus, it is not a racing car; you will go the same speed as a pedestrian.

Do I need a driver's licence?

No, you do not.

Is the scooter rental included in the tour price?

Yes, if you have ticked the box "person on a scooter" on the booking form.

Do I have to book the tour in advance or can I just come to the meeting point on the day?

You need to book the tour in advance as the number of scooters is limited. These are individual tours for people that know each other, and we do not add any strangers to them. Also, the tours take place in various languages.
